## PAGE 37

To store a Preference EQ to a preset, press **SAVExx** on the remote and then a sequence of two digits between **00** and **09**. Up to ten presets can be stored per profile (P0 to P3).

To recall a Preference EQ preset, press **EQxx** on the remote and then a sequence of two digits between **00** and **09**. Provided that the selected preset number has previously been saved to the current profile (P0 to P3), the Preference EQ settings will be recalled and become active..

## PAGE 39

DEQX software supplied with a DEQX processor is now delivered on a USB stick instead of on a CD. Insert the USB stick into a spare USB port of your computer, and run the installer software from there. Alternatively, download the latest software from the DEQX website at:

- <https://www.deqx.com/support/#downloads>
